

Paging Servers

KEEP ON-SITE AND REMOTE TEAMS SAFE, INFORMED AND PRODUCTIVE

Regroup Mass Notification is known for keeping dispersed and hybrid workforces close. With our latest hardware integrations, Regroup delivers unparalleled flexibility and performance in team communication.

With Regroup's Paging Server integration, our cloud-based mass notification platform couples with SIP endpoints and provides an easy-to-use solution for both on-site and remote teams.

Provide visual critical alerts to staff, customers, patients and students.

Reach employees at their workspaces.

Notify customers of general announcements.

These innovative SIP endpoints deliver your critical and routine messaging in a seamless, multi-channel environment

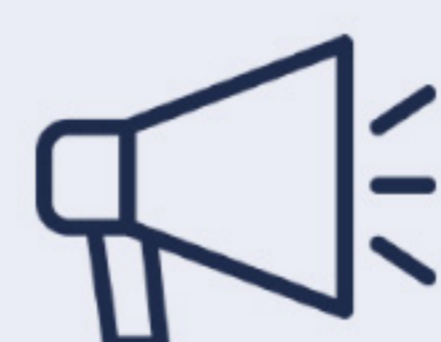

- Two-way communication
- Automated alerts from IPAWS, NOAA and NWS
- Geofenced messaging
- Multi-location threat intelligence
- Unlimited admins, groups and templates
- Desktop alerts
- Mobile app

Using Regroup's open API, the SIP Paging Server provides visual alerts, audio announcements, cloud-based notifications and multicasts to LAN devices.

This provides superior coverage both on- and off-site.
