

SINGLE TENANT

Protecting Customer Data
and Privacy

THE CHALLENGE

Evolving Security Demands in a Digital Landscape: As organizations handle increasingly sensitive data, protecting this information against sophisticated cyber threats is paramount. The need for robust, dedicated security solutions has never been greater.

THE SOLUTION

Exclusive Security with Regroup's Single-Tenant Environment: Our single-tenant architecture ensures that your data remains completely isolated, with no unauthorized access or data mingling, providing a robust defense against potential breaches. (along with customizable hosting options)

SECURITY ARCHITECTURE FOR ENHANCED DATA PROTECTION

COMPLETE DATA ISOLATION

Guaranteed Privacy and Integrity: Each client's data is hosted in an isolated environment, ensuring it remains completely separate from others. This setup protects against data breaches and significantly enhances data privacy.

MAXIMUM SECURITY

Unmatched Protection with Single-Tenant Architecture: Using a single-tenant setup, we offer the highest degree of data security today, safeguarding sensitive information from unauthorized access and cyber threats.

FULL CUSTOMIZATION CONTROL

Tailored Solutions for Unique Needs: Our single-tenant environment allows complete control over system customization. Clients can tailor functionalities, security settings, and integrations to fit their specific operational needs, ensuring an optimized and efficient system.

“Regroup not only meets our communication needs but also exceeds our expectations in data security and system customization.”

— David A | VP, CIO - Enterprise

Since 2006, Regroup Mass Notification has provided a cloud-based, multi-channel mass notification platform for emergency and routine applications. Serving the educational community, enterprise, manufacturing, finance, and government sectors, our commitment to innovation and security has established us as a leader in the mass notification field.
