

# IMPROVE CAMPUS SAFETY AND COMMUNICATIONS

Mass notifications for a safer, more productive learning environment

Regroup enables universities to communicate better with their communities and respond faster when seconds count. Our award-winning mass notification platform is cost-effective, easy to use, and integrates seamlessly with your existing LMS software.

**IN THE FIRST 61 DAYS OF 2018 THERE WERE ALREADY 12 SCHOOL SHOOTINGS, AN AVERAGE OF ONE SHOOTING EVERY 5 DAYS.**

*"Everyone recognizes this is a key moment. Every school district... should be doing everything it can to ensure its schools are as safe as possible."*

L.A. City Atty. Mike Feuer

## EMERGENCY NOTIFICATION SOLUTIONS FOR UNIVERSITIES

### Automate Critical Notifications

Send rapid, two-tap alerts from Regroup's mobile app to cell phones, landlines, school security, 911, email, social media, and more.

### Reach Your Entire Campus

Integrate Regroup with panic buttons, desktop notifications, help point towers, fire and PA systems, digital signage, outdoor sirens, and more.

### Easy Opt-In, Free Mobile App

Regroup's free mobile app makes it easy for students and faculty to opt-in for notifications and receive them wherever they go.

### Alert Specific Locations

Our GeoFence technology allows you to alert a specific location, and even notify people outside of the area to stay away.

### Critical Two-Way Communications

Witnesses and first responders can send important information and updates from the scene to improve response time to emergencies.

Regroup allows your various departments to create unlimited groups and admins in order to communicate daily information better than ever before. Our seamless integrations and easy-to-use platform make Regroup a tool that you'll use every day.

Powerful integrations with your existing hardware and software make Regroup a communication tool that can - and will - reach everyone with the information you need to send.

## REGROUP FOR DAY-TO-DAY CAMPUS NOTIFICATIONS

### Weather Closures & Delays

Automatically provide advance warning of severe weather closures or delays with Met Office notifications.

### Student & Faculty Updates

Quickly and easily notify students about tuition balances, registration updates, and more while keeping faculty informed too.

### Event Reminders

Send reminders of social, academic, and athletic events to relevant groups to increase community engagement.

Enable faculty, administrators, and course instructors to easily send messages through Regroup to students within Blackboard Learn.

Regroup's Alertus integration lets you send notifications to desktop computers, PA systems, VoIP phones, digital signage, fire panels, and more.

Code Blue help points and PA systems can be activated through Regroup's system to broadcast important messages wherever they're installed.
