

REGROUP MASS NOTIFICATION FOR HOSPITALITY

Elevate Guest Experience and Ensure Safety Across All Hospitality Sectors

The hospitality industry faces unique challenges ensuring guest satisfaction and safety. From emergency notifications to day-to-day operations, Regroup's Mass Notification platform empowers you to communicate effectively across all venues, ensuring seamless coordination and a superior guest experience.

Hotels & Resorts

Use Regroup to send real-time alerts for emergencies like severe weather or security threats. Enhance guest experiences with timely updates on amenities, events, and more.

Restaurants & Food Service

Overcome communication challenges and improve guest experience by coordinating operations and alerting staff instantly in case of emergencies.

Event Venues & Large Gatherings

Manage large crowds effectively with Regroup's integrated alert systems. Ensure safety and provide real-time information through digital signage and mobile notifications.

Casinos & Gaming

Improve security and operational efficiency with real-time alerts. Personalize communication to enhance the guest experience at every touchpoint.

Cruise Lines

Use mobile communication tools to keep dispersed teams connected. Send geo-targeted notifications to ensure safety and smooth operations on board.

"Viejas made the change to Regroup since our previous mass notification system was not user-friendly, and had very limited capabilities. When looking at companies, we saw all the options that Regroup offered us from ways to send out notifications to how you could create customized locations and groups."
