

# REGROUP MASS NOTIFICATION FOR **MANUFACTURING**

Regroup 

## **SAFETY IN THE MANUFACTURING ENVIRONMENT IS ESSENTIAL.**

A solid communication plan and a reliable platform for sending routine and emergency notifications can help manufacturers overcome production challenges and downtime while mitigating risks during critical events.

## **AVOID SUPPLY CHAIN DISRUPTION AND PROTECT YOUR PEOPLE**

Protecting workers, facilities and assets from threats is a practice every manufacturer should incorporate. Threats can include disruptions in production, chemical exposures, logistical challenges and even severe weather. Ensuring a safe environment and keeping people informed demands a robust solution like Regroup.

**During the global pandemic of COVID-19, many U.S. manufacturers experienced disrupted supply chains without contingency plans in place.**

Regroup Mass Notification delivers a cost-effective mass communication solution that can help manufacturers remain nimble in everyday business and address real-world threats quickly. Additionally, Regroup can help reduce costs and increase ROI.

## **THE COMMUNICATION PLATFORM FOR EVERYDAY AND EMERGENCIES**

- ✓ Immediately alert product leaders when equipment is offline
- ✓ Automate severe weather alerts
- ✓ Send training and policy updates
- ✓ Alert remote and traveling staff
- ✓ Send rich messages with images or video
- ✓ Create unlimited employee groups, leadership groups and more
- ✓ Broadcast physical procedures for COVID-19
- ✓ Get on-scene feedback with two-way communication
- ✓ Alert all in the event of suspicious activity

Regroup Mass Notification is the reliable communication platform that does it all. In just two clicks or taps, you can notify your entire network, specific segments or individuals.

- ✓ Delivers to email, text/SMS, push notifications, desktop notifications, intranets and more
- ✓ Unlimited user groups, administrators, Quick Post templates
- ✓ Automatic severe weather alerts from NOAA/NWS
- ✓ Geo-fence technology to target specific areas or facilities
- ✓ Rich reporting features for accountability
- ✓ 24/7 client support
- ✓ Ease of use - even for non-technical users
- ✓ The most trusted name in mass notification

## HOW MANUFACTURERS USE REGROUP

### Emergency Notifications

Severe weather alerts, active shooter scenarios, wildfires, chemical exposures

### Operational Resilience

Supply disruptions, product line outages, safety drills, policy updates

### Employee Relations

Policy updates, procedural guidance, shift needs and openings

Regroup can help manufacturers keep their workforces connected, informed and prepared everyday and during emergencies.
